Prepare for Your Triennial Accreditation Survey
By Steven Hirsch, MPA, FACHE

If your organization is due for its triennial accreditation survey in 2022 or 2023, we are currently scheduling Mock Surveys and Continuous Survey Readiness Visits. Note that healthcare organizations whose triennial accreditation surveys were delayed due to the COVID-19 pandemic and were completed late, will likely have their next triennial survey off schedule. To manage their workflow, accreditation organizations will attempt to restore their previous distribution of accreditation surveys, causing some surveys to be conducted **up to a year early** for the next survey cycle.
